WONDROUS GRACE Tune-Oh, the Love! Tune—Oh, the Love!

In tenderness He sought me, weary and sick with sin,

And on His shoulders brought me back to His fold again;

While angels in His presence sang Until the courts of Heaven rang.

Chorus. Oh, the love that sought me! Oh, the grace that brought me to the fold! Wondrous grace that brought me to the fold!

He pointed to the nail-prints, for me His Blood was shed ins blood was shed; mocking crown so thorny they placed upon His head; I wonder what He saw in me To suffer such deep agony?

He washed the bleeding sin wounds, and poured in oil and wine; He whispered to assure me: "I've found thee, thou are Mine!" I never heard a sweeter voice: It made my aching heart rejoice.

bein EARLY1 and should invite lean EARLY1 and should invite manader to visit my Cosps and conference concerning, local would be the best to do

"I should arrange a sale of work and should get my Soldiers and friends busy on that project in good time. A very profitable plan is to solicit orders from friends as to what they would like to how at the Sale of Work and get the workers to make up those articles. Useful goods can generally command a sale.

"I should then prepare a map, which would show a district or a street for every Soldier and. Recruit. The idea is for every person in the town to be waited on and informed concerning The Army's Effort This means that I should in Soldiers' meetings instruct my nearle in the art of giving a brief and effective explanation of The Army's Work and reasons for Self-Denial to neonle; when they come to their doors.

EARL KITCHENER'S MOTTO

"Thou I should suderwate to interest the influential people of the town by sending them copies of the special Self-Denial 'Crys' and should arrange with the Publishing Office to let me have a supply for free distribution at a cheap rate. These places I should look after myself. In fact the secret of success every time is indefatigible oversight--seeing that other people do their work. Kitchener is perhaps the most outstanding military leader in the world. He has been created an earl and after the manner of pobility. has adopted a coat of arms and a motto. His motto is that single, but sound, word, 'Thorough,' He is that stigge, but so assuad, word, introdugh. Introduction took that word for his motto when a grateful country rewarded him with a peerage. But it has been his notto all through life. In Egypt, in South Africa, it was 'thorough' It will be south Africa, it was 'thorough'. The Salvation Army Officer, who wants to succeed must be 'thorough' in his or her oversight and leadership.

"Well, now, having started my people on the work that takes time to accomplish and having mapped out the locality for every Soldier, so that not a soul will be missed, I should lay myself out to let the town know all about it. One way of doing so is through the newspapers. There is so much matter of human interest connected with the Effort, and it is so marvellous in itself, that most papers would give some space to it. If I could not prepare such an article myself, I should write to the Special Efforts Department at Territorial Headquarters and get them to supply one, and I should add to it all the local matter that I wanted, It may be possible to get these newspapers to open up a find and receive dona-tions for the Effort. At any rate, they would be glad to print daily news items during the week as to how the Effort was getting on.

CULTIVATE CHEERFUL RIVALRY

"Then there is the great principle of provokin one another to good works. Friendly com-petition is a wholesome factor and a great incen-tive to effort. Unlivate cheerful rivalry, pit district against district, the Corps against the Band: the brothers against the sisters; the lunior Locals against the Senior Locals, etc., and then blaze abroad mightily bow things are going.

"There are also the churches. We have a right to their help and sympathy. A very highly-placed Church of England dignitary recently said placed Church of Engand ugintary recently said in a Toronto meeting fiat he did not know what the churches would do without The Salvation Army, as they kept open door day and night to swhich the churches could turn in their perplexity with destitute or erring cases.

"I should see the ministers and get them to

church-door collections. Also, I would endeayour to address their congregations.

"Theu I should have a great ingathering in some large Hall or church, that I could secure for nothing, and amidst joyousness and enthussizem I should have the Soldiers of the various districts and the Bands and Locals and the luniors come up with their results. I should make a great night of it, and then when it was all over I should, as soon as possible, send a full necount to 'The Cry.'

"In the main that's how I should so to work but of course there are always local things to take hold of and boom. Different times and localities each produce a different string to pull. and he is the wise and successful Officer who can tell the string when he sees it.

"I have duralt comprehen on the human cide in the forcoing, as it goes without saying 'that the hattle is the Lord's,' and His blessing, by prayer and supplication, must be secured upon all the Officer's emerprises.

"I have also dealt chiefly with the collecting by our Soldiery. But, as you know, there are two planks to the Self-Denial platform-personal giving and collecting.

THE ALTAR SERVICE

"I should make a great feature of the Alias" Service on S.-D. Sunday morning (May oth). All my life, since the inception of Self-Denial, I have found the Altar Service, if properly carried out. to be a sugramout to the souls of those who took part in it. Not only is the Altar Service to be made the means of getting the Soldiers' gifts, but to bring about a deeper work of grace."

"Well, now, Commissioner, you have told us what you would do if you were a Field Officer, may we ask you what you have planned to do as Territorial Contmander?"

"Well, one of the things that we propose doing in Toronto is to have a great ingathering in some large building as soon as possible after the conclusion of the Effort. In this service all the Corps of the Toronto Division will bring in their Corps totals, and we shall show by limelight the Divisional totals through the Territory, together with the results of some of the leading Corps, and those that have done well according to their eireumstauces

INSTRUCTIVE TABLEAUX

The meeting will be made interesting and instructive by means of tableaux representing. missionary seemes. Heroic deeds of humanity by Salvationists on the battlefields of Frances, and Social scenes. There will also be representative delegates from Divisions, and altogether you may look out for a meeting of tremendous enthusiasm on May 31st.

"What is the target that has been fixed for the Territory, sir?"

"I never limit the devotion of the Officers and Soldiers by fixing a target. Their interest in the Self-Denial Effort, their zeal for the Kingdom of God, their ambition for their Territory will of Cod, their antitition for their Territory, will, I am sure, cause them to do their very best; but if little New Zealand, with its one and a quarter million population, can raise \$50,000, what ought the great and wealthy Dominion of Canada, with right million population, and its large and covergetic contingent of The Salvation Army, accomplish?

"I am hoping for a total that will be in ligr-mony with the world's needs, and the Canadian Territory and the Canadian Soldiery."

Now, all here things to be made are very advisors. Certain about the ability for fairs me fear and towards. Eventually, daylight began to dawn, and I found myself being driv. en-no slowly deagged-by a pair of weary bullocks, along a very heauti-ful road, overhung on either side with tropical trees and ferms of almost every conceivable description.

As far as I could see foliage aboundul: cocceput and palmira trees tour high above the rest. A sight I shall never forget. The scenery was completed by a blue sky, such as I had read about, but never seen, and a cance of hills in the distance which formed a very effective hackground to what my guide informed me was

Drawing nearer to the village, I saw nothing before me but, a long row of liouses, but perhaps, I should say, to be proper, all of muc brick construction; the law roofs of which were made from the large palmira tree. I immediately set to wondering which of these houses might be the Headquarters for the Travancore Territory, and was much surprised to find that we slowly, but surely, passed them all. Now, I was again on a country road with no habitation in view at all. Two Thousand Men Attend Salvation Army "Church" Parade.

An interesting account of the visit of Wellington City Corps Band to the Trentham millitary camp for the week-end appears in the latest New Zealand 'War Cry," from which we take the following extracts:-

"Four bell tents had been placed at the disposal of the Band, and after an enjoyable supper, kindly pro-vided by the officers' mess, we were allotted to our respective tents. How a Drunken Indian and His Wife Were Reclaimed Through the Faithfulness of a Native Local Officer

The writer has known George Paul and wife for over eleven years. He married them in Douglas, Ataska.
At that time George Paul was a real good fellow, ever ready to do all he could to help on the work of God. For a few years he thus lived, but the time came when he began to the time came when he began to disobey God, and the result was backsliding set in. His wife also went down with him, and their downward course was swift and terrible. Drink was the great cause of it all. They drank and drank until it all. They drank and drank until cycrything was sacrificed to it. Many times 1 have visited their house when in Douglas, and talked and prayed with them. They promised to do better, to stop and get saved, but did not put their promises into

but did not put their promises into execution.

Last August they, with some others, got on a hig spree. Mrs. Paul had her face badly cut, requiring some stitches. The U. S. Marshal was called to try and quell the course for the day of the course had a cun with halasina was caused to try and quent the row. George had a gun with which he threatened to shoot, and the Marshal went for help. In the meantime some one went for Sergeant-Major Mrs. Betts, who rail as fast as she could to their house, seized the gun, and then threw he self on her knees, and eried to God

for help.

While on her knees the Marshal arrived with two assistants, but when they saw the Sergeant-Major on her knees praying, they stood still, removed their hats, and waited until she was through praying.
They then asked her what they should do with George Paul, Said: do not want you to take him to jail, leave him with me." She promised to stay with him until he sobered up, which she did.

Between August and the follow between August and the follow-ing Christmas they had several dranks. Not only did the Sergeant-Major talk and pray with them after this row, but many times previous to it, hut it is a long lane that has no turning. It was about Christ-mas time that they were on one of their big drunks, and the Sergeant-Major went to see them when they sohered up, and the result was they were beginning to realize that sin was fast telling upon them. The Holy Spirit was also making them to see their awful condition. This time they promised to come to the first meeting and get saved, and true to their promise, they were there.

This was the first Sanday after Christmas. When Sergeant-Major Mrs. Betts commenced to talk, Mrs. Pagi volunteered out, followed by her hushand, and they both eried out their sin-burdened hearts to God, asking pardon for the dark past. True to His promise, God rolled the burden of guilt from their

hearts.

The other day, when I visited Douglas Corps, they both were happy in their Sevieur's love, doing their oest to help their Local Of God and other fieer in her work for God and other souls sunk in sin. How applicable is the Gospel of Jesus Christ to all races and tribes of people, and what a blessing that Jesus Christ, by the grace of God, tasted death for every man.-Robert Smith, Staff-Captain.

Then up rose a peacemaker in Tom, the office boy. This young person rattled off on a typewriter on a typewriter live index, both exactly the same. One was addressed to Bob, apparently by Joe, and the other to Joe, written by Bob. This was how they ran:

"Don't you think this thing has one far enough? We are working in the same office and ought to be friends. If it witt do any good I will say the fault was all mine. After you read this act just as the you read this, act just as though nothing had happened—and I will,
